

**MOBO-CX42 / MOBO-CX50**

**MOTORIZED CEILING MOUNT**

The MOBO-CX42 is a full-motion ceiling-mounted television bracket which operates via remote control and supports flat-panel televisions between 32" and 42". The MOBO-CX50 features a larger bracket, supporting televisions up to 50". The main post can extend approximately 40", and once extended it can also adjust in two planes (tilt up/down, swivel left/right). Both units can support televisions weighing up to 110 lbs. (50kg), and both feature VESA standard universal mounting points.
