IR to Bluetooth Converter for PS3

- *Integrates Sony® PlayStation 3® into IR control systems*
- *Compatible with almost any learning IR remote*
- *Power via USB, batteries, and/or AC adapter*
- *Advanced programming and macros via PC application*

BlueBeam

Model
C-1071A

Integrate the PS3

The C-1071A "BlueBeam" translates IR commands from a universal remote control to Bluetooth signals that control the Sony PlayStation 3. Works with any IR remote control capable of sending Sony PlayStation commands, including Logitech Harmony and Universal Remote Control remotes.

Enables all PlayStation 3 remote commands, including off/on. Powered via two AA batteries (included), USB, or optional power supply (sold separately). Requires no physical connection to PS3.

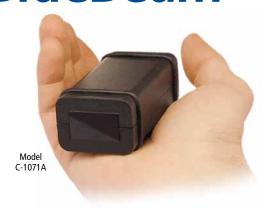

Control codes are available from many remote control manufacturers, or CCF files for other remotes can be downloaded from www.audioauthority.com/page/software.

Three different power configurations are possible. Shown is an ideal power saving combination of battery power and power via USB from the PS3. USB to mini USB cable not included.

AA Batteries   USB

BlueBeam

IR Remote Control   PS3

MODEL C-1071A FEATURES:

- Allows full control of DVD/Blu-ray playback and power on/off
- Works with almost any programmable IR remote control
- Auto-pairing for effortless installation with a PS3
- Use the built-in infrared optical receiver or wired input
- IR repeater mode passes 3rd party signals to IR emitters
- Alternate IR codes prevent conflicts with Sony DVD players
- Innovative, compact case design allows easy battery change
- PC software enables custom settings via a USB interface
- Custom macro capability for power off, etc.
- Senses PS3 power on and off via USB connection, or remembers PS3 power state internally
- Firmware upgrade capable including Bluetooth upgrades
- Low battery indicator and activity feedback indicator lights
- Automatic low-power mode for extended battery life

SPECIFICATIONS:

Dimensions	3.3x1.8x1.3 inch (85x45x34mm)	Expected Battery Life	6-12 months*
Weight	Unit: 1.87oz (53g), Shipping: 4.28oz (121g)	System Requirements	Windows 2000, Windows XP,
Temperature Range	32° - 113° F (0° - 45° C)	for PC Software	Windows Vista (32 and 64bit) or later
Relative Humidity	15% - 95% Non condensing		Min. 2MB free hard disk space
Placement	Within 30 ft of PS3 (not in direct sunlight)		Min. 32MB free memory
External IR Pinout	Tip=5V, Ring=Signal, Sleeve=Ground		Min. 1 free USB 1.1 or 2.0 port
IR Repeater Mode	Frequencies: 36 to 40kHz	Accessories Included	Two AA batteries and quickstart guide
Optional DC Power Supply	9-12VDC, min. 100mA (Part# 571-013)	Agency Approvals	CE, FCC
Batteries (Included)	2 x AA alkaline (LR6) standard batteries		

* Expected battery lifetime is approximate. Actual battery life depends on battery type, model, usage patterns etc.
